Screenshot:- Story points added

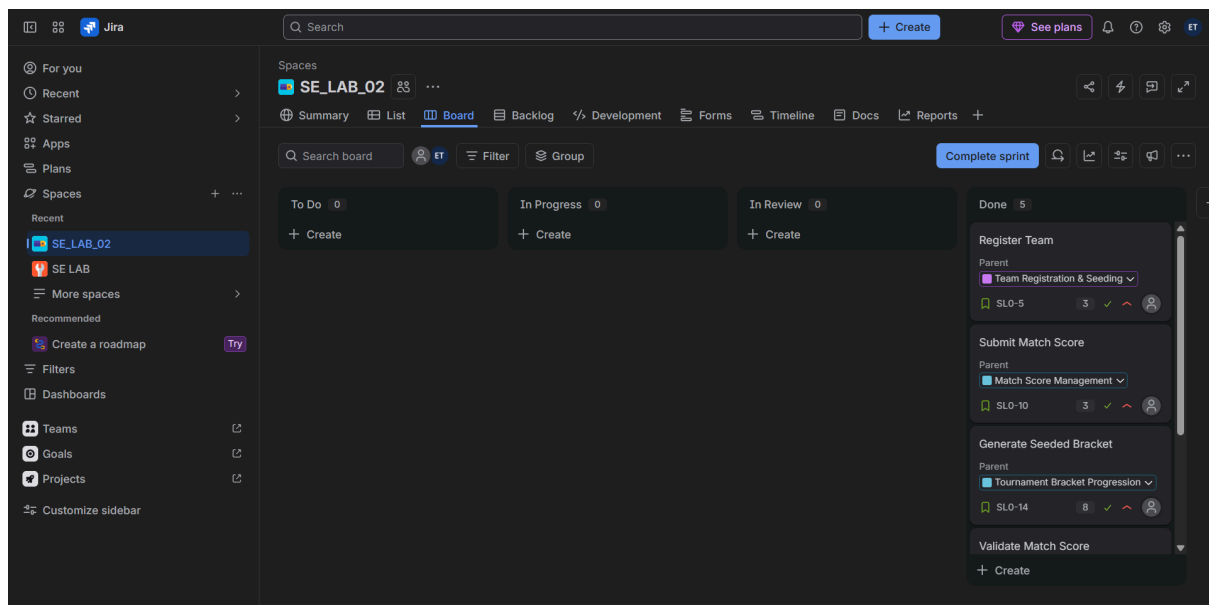

This screenshot shows a Jira table listing story points for various tasks. The table has columns for story point IDs, task names, action buttons, status, points, and user icons. The 'Update Leaderboard' row is highlighted in blue.

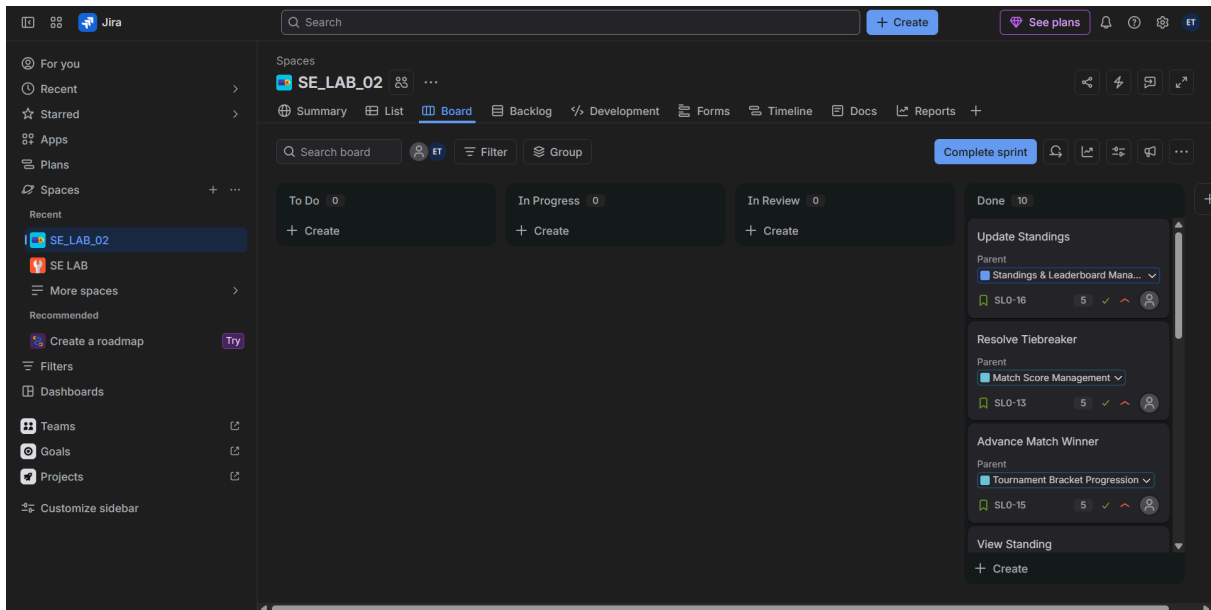

Story Point ID	Task Name	Action	Status	Points	User
SLO-3	page 2	To Do	-		
SLO-5	Register Team	Team Reg...	To Do	3	
SLO-9	Seed Teams by Ranking	Team Reg...	To Do	5	
SLO-10	Submit Match Score	Match Sc...	To Do	3	
SLO-12	Validate Match Score	Match Sc...	To Do	3	
SLO-13	Resolve Tiebreaker	Match Sc...	To Do	5	
SLO-14	Generate Seeded Bracket	Tourname...	To Do	8	
SLO-15	Advance Match Winner	Tourname...	To Do	5	
SLO-16	Update Standings	Standings...	To Do	5	
SLO-17	Update Leaderboard	Standings...	To Do	3	
SLO-19	View Standing	Standings...

Screenshots of both Burnup reports

Reflections Answers

1. Did your estimations reflect the actual effort?

Yes. The story point estimates generally reflected the relative effort and complexity of the work. More complex functionality such as generating the seeded bracket was assigned higher points, while simpler functionality such as viewing standings received fewer points.

2. Was your backlog well-prioritized?

Yes. The backlog was prioritized based on the importance of tournament functionality. Core features such as team registration, bracket generation, match score management, and standings were given high priority because they are essential to the tournament workflow.

3. How did your simulated sprint align with your plan?

The simulated sprints aligned with the plan because the selected user stories were completed within their respective sprints. Sprint 1 focused on tournament setup

and match score management, while Sprint 2 focused on tournament progression and standings/leaderboard management.

4. What insights did the burndown chart give about your team's capacity?

The burndown chart showed that the planned work was completed very quickly during the simulation. The sharp decrease in remaining story points indicates that the team was able to complete the selected work, although the simulation does not represent realistic development time. The chart also demonstrates how burndown charts can be used to compare planned progress with actual progress.

Epic	Story ID	User Story Description
Team Registration & Seeding	Story 1.1	As a Team Captain, I want to register my team for the tournament, so that my team can participate in the tournament.
Team Registration & Seeding	Story 1.2	As a Tournament Director, I want to seed registered teams according to their rankings, so that teams are placed correctly when generating the tournament bracket.

Epic	Story ID	User Story Description
Match Score Management	Story 2.1	As a Tournament Director, I want to enter and record the final score of a match, so that the match result is stored accurately.
Match Score Management	Story 2.2	As a Tournament Director, I want the system to validate submitted match scores, so that invalid scores are rejected and incorrect results are prevented.
Match Score Management	Story 2.3	As a Tournament Director, I want the system to apply configured tiebreaker rules when a tie occurs, so that the correct winner or standings order can be determined.
Tournament Bracket Progression	Story 3.1	As a Tournament Director, I want to generate a seeded single-elimination or double-elimination tournament bracket based on registered teams and their rankings, so that the tournament has valid match pairings.
Tournament Bracket Progression	Story 3.2	As a Tournament Director, I want the winner of a completed match to automatically advance to the appropriate next match, so that the tournament bracket remains consistent and up to date.
Standings & Leaderboard Management	Story 4.1	As a Tournament Director, I want the system to automatically recalculate standings after a valid match result, so that the standings reflect the latest tournament results.
Standings & Leaderboard Management	Story 4.2	As a participant, I want to view updated tournament leaderboard information, so that I can track tournament progress and rankings.
Standings & Leaderboard Management	Story 4.3	As a Team Captain, I want to view the current tournament standings, so that I can track my team's position and progress.
